

# Your Bridge to Fast, Efficient Procurement Operations

Does it seem like there's a gulf between where you are with procurement and where you need to be? SAP can help – with a rapid-deployment solution that integrates your on-premise SAP® Business Suite software with the cloud-based Ariba Collaborative Commerce Network.

## Your Bridge to...

### Value

Get the most out of your existing SAP software investment by leveraging the data you already have. Drive better, more cost-effective collaboration with vendors and trading partners with SAP ERP, SAP Supplier Relationship Management (SAP SRM), and SAP Customer Relationship Management (SAP CRM) applications. Transform the way you interact with your partners – to increase efficiency, reduce costs, and help ensure the quality your customers expect.

### Efficiency

Say goodbye to paper-based processes, and drive down the costs of on-boarding and managing partners. Streamline collaboration and automate key process such as procure-to-pay and order-to-cash.

### Integration

Let SAP extend your on-premise solution with a leading business-to-business collaboration platform in the cloud. Drive bidirectional integration for your data and business processes across materials management and product catalogs.

### Speed

In as little as 4 weeks, integrate on-premise and cloud solutions from SAP with our rapid-deployment solution that minimizes risk according to a fixed-cost, fixed-scope agreement.

## The Power of the Ariba Network

Tap into the world's largest trading platform and transform procurement to drive down costs, increase efficiency, and dramatically improve your competitive advantage:

- Nearly 1 million trading partners
- More than 60 million invoices
- Global coverage
- More than 40 million purchase orders
- Approximately \$400 billion in annual spend
